CONTENTS VOLUME 27 (1987)

Research Papers

Exploration for kimberlities in the southwest Goiás region, Brazil: Mineral chemistry of stream sediment samples
L.A. Tompkins (Rio de Janeiro, Brazil) 1

Arid environment geochemical exploration in Saudi Arabia. The problem of aeolian contamination
J. Barbier (Orleans, France) 29

Temporal variation of metal concentrations in biogeochemical samples over the Royal Tiger Mine, Colorado, Part II. Between-year variation
J.D. Stednick (Fort Collins, CO, U.S.A.) and W.C. Riese (Houston, TX, U.S.A.) 53

Further assessment of stable lead isotope measurements for uranium exploration, Pine Creek Geosyncline, Northern Territory, Australia
B.L. Dickson and B.L. Gulson (North Ryde, N.S.W., Australia), and A.A. Snelling (Runcorn, Qld., Australia) 63

Depletion haloes in fresh rocks surrounding the Cobar orebodies, N.S.W., Australia: Implications for exploration and ore genesis
I.D.M. Robertson (Fyshwick, A.C.T., Australia) and G.F. Taylor (North Ryde, N.S.W., Australia) 77

The oxidized profile of BIF-associated Pb-Zn mineralization: Pegmont, northwest Queensland, Australia
K.M. Scott and G.F. Taylor (North Ryde, N.S.W., Australia) 103

Ammonium silicates associated with sedimentary exhalative ore deposits: A geochemical exploration tool
L.B. Williams, H. Zantop and R.C. Reynolds (Hanover, NH, U.S.A.) 125

Biogeochemical prospecting for gold in the Canadian Arctic
K.A.L. Reading (Thornhill, Ont., Canada), R.R. Brooks (Palmerston North, New Zealand) and S.D. Naidu (Suva, Fiji) 143

Biogeochemical studies of plants from stream banks in northern Sweden
N.H. Brundin, J.I. Ek and O.C. Selinus (Uppsala, Sweden) 157

Geochemical characterization of epithermal alteration in southeast Negros, Philippines
O. Celenk (Manila, Philippines), R.A.L. Flores and A.P. Dela Cruz Jr. (Q.C. Philippines) 189

Short Note

Rapid method of cleaning aquatic moss
T. Lenarčič and S. Pirc (Ljubljana, Yukgoslavia) 213

Book Reviews

The Chemistry of Weathering, by J.I. Drever (Editor) — A.W. Rose 217

The Heavy Metal Tolerant Flora of South Central Africa, by R.R. Brooks and F. Malaisse — M.M. Cole 218

Geology and Geochemistry of Epithermal Systems, by R. Berger and P.M. Bethke (Editors) — S.B. Romberger 219

CRC Handbook of Atomic Absorption Analysis, by A. Varma — A.W. Rose 220

Geochemical Exploration 1982, by G.R. Parslow (Editor) — L.J. Verleun 221

Mineral Exploration: Biological Systems and Organic Matter, by D. Carlisle, W.L. Berry, I.R. Kaplan and J.R. Watterson (Editors) — C.E. Dunn 223

Applied Geochemistry in the 1980's, by I. Thornton and R.J. Nowarth (Editors) — A.W. Rose 225

Introduction to Applied Geophysics, by S. Mares — K. Lambeck 226

Research Papers

Electron spin resonance of auriferous and barren quartz at Beaconsfield, northern Tasmania
J.C. van Moort and D.W. Russell (Hobart, Tas., Australia) 227

Ironstone-gossan discrimination: Pitfalls of a simple geochemical approach - A case study from northeast Scotland
K. Nicholson (Glasgow, Scotland, U.K.) 239

Environmental influences upon mercury, radon and helium concentrations in soil gases at a site near Denver, Colorado
R.W. Klusman and J.A. Jaacks (Golden, CO, U.S.A.) 259

Response of douglas fir (*Pseudotsuga menziesii*) to uraniferous groundwater in a small glaciated drainage, northeastern Washington State
R.A. Zielinski and R.R. Schumann (Denver, CO, U.S.A.) 281

The use of sorting curves in studying K_2O alteration in interbedded greywacke and argillite
W.P. Lickley, R.E. Whitehead and J.F. Davies (Sudbury, Ont., Canada) 299

The use of geochemical methods to characterize the metamorphic domain in the Belgian Ardennes
F. Sondag (Louvain-la-Neuve, Belgium) and J.C. Duchesne (Sart-Tilman, Belgium) 311

Influence of the siliceous component in determination of gold in plant materials
Hou Zhihui (Langfang, Hebei, P.R. China) 323

Field determination of copper, manganese and zinc in sulphide materials by flameless atomic absorption spectrometry
D.C. Gregoire (Ottawa, Ont., Canada) 329

Book reviews

Discoveries of Epithermal Precious Metal Deposits, by V.F. Hollister (Editor) - C.A. Kuehn 341

Prospecting in Areas of Desert Terrain, by IMM - D.B. Smith 343

Contouring Geological Surfaces with the Computer, by T.A. Jones, D.E. Hamilton and C.R. Johnson - E. Weiland 344

The Regional Geological Survey Field Methods, Vol. 4, by The Geological Publication Company, Beijing - Chi-I Huang 346

AEG News 349
